**2. OPERATIONS:**

The founder Chairman has the aim and vision to convert the Company's resort into the star category. After the sad demise of the founder chairman, the existing management has decided to move forward as per his vision and convert Company's resort into star category. The Company has decided to carry out the development of the resort based on the plan approved by the founder Chairman. The founder chairman divided the development of the resort in four phases. The first phase of the development was completed; however the remaining phase could not be completed due to ongoing litigation, lack of funds and various other reasons. The year saw a challenging business environment with lower GDP growth and slowdown in consumption. This resulted into a weakening consumer sentiment and lower demand for the categories in which we operate. Because of the said reasons the management is not able to rollout the membership drives also. These reasons have also affected the current operation of the resorts which is ultimately resulted into the loss during the year under review.

The novel coronavirus COVID 19, a global pandemic has affected not just human health but severely impacted on the real estate and hospitality business of the Company. The Company has taken several measures to sustain the operations, optimization of financial resources and cost control. Detailed Discussions has been included in Management Discussion and Analysis.

**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

**Global economy:**

The ongoing COVID-19 pandemic has brought global economic activity to almost a standstill. Owing to wide scale lockdowns in most parts of Asia, Europe and in South and North America, the service sector, particularly travel, tourism and hospitality have seen severe disruption to their businesses. With businesses staring at severe liquidity crisis, unemployment rates have risen sharply. Likewise, sharp drops in consumer spending have affected global supply chains. Governments across the world have introduced stimulus packages to support their economies which will further exasperate their fiscal deficits. There are varying opinions on the shape and the scale of economic recovery with the outlook still uncertain till a vaccine or an effective treatment for COVID-19 is found. The International Monetary Fund estimates the global economy to contract sharply by 4.9% in 2020, much worse than during the 2008-09 financial crisis. All the major economies of world are projected to shrink in 2020. The global growth momentum remains steady across the various developed and underdeveloped economies and in the near future no sharp upward revival is seen in the global economy.

The hospitality industry is taking all the measures to survive the short term effect of the global pandemic and preparing for the new normal. Now focus is on the hygiene and safety measures of the customers.

**Indian Economy:**

Much like the rest of the world, the Indian economy has been deeply affected by the impact of the COVID-19 pandemic with its far reaching consequences on economic and social life. The lockdown in India that was imposed on 24th March 2020 has had an unprecedented impact on the economy owing to a steep fall in demand as well as supply.

The process of lifting the lockdown in various states has since started in phases, effective 20th May 2020, guided by the decision of individual states, although during a major part of this lockdown period, hotel and flight operations were mandated to remain non-operational across India. We expect domestic travel to gradually pick up as the lockdown in various cities in India is lifted. Further, once border restrictions are lifted, we expect international travel to also progressively resume. It is believed that the government fiscal stimulus and release of COVID-19 vaccine by mid of 2021, the economy will sharply bounce back in 2021.

India has emerged as the fastest growing major economy in the world and is expected to be one of the top economies of the world in the next couple of decades. Last few quarters are experiencing the lower growth rate in the economy. The government is tried to improve the economic scenario of the country by formulating and implementation of various policies and decision such as labour reforms, increase participation of the youth in various program, focus on higher and skilled education program. However higher reforms number of young work force, Household savings and policy are the main factors to drive the growth of the economy in the future. Lower interest rates, higher income and various other factors will continue to boost economies.

**Industry Structure and Developments:**

The year 2020 proved to be a rather staid roller coaster ride for the real estate industry, with its share of 'highs' and 'lows' devoid of the convulsive stir that the industry had witnessed. The real estate sector is one of the most globally recognized sectors. The real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. In India, real estate is the second largest employment provider after agriculture and is stated to grow at 30 per cent over the next coming decade.

The growth in this sector is well complemented by the growth of the corporate environment and the demand for the commercial space as well as urban and semi-urban accommodations. The Indian real estate market is expected to touch US\$ 180 billion by 2020 contribute more than 10% of the Country's GDP. The market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of more than 10.00 per cent. Growing requirement of space from sectors such as education, healthcare, retail, logistic, and e-commerce will contribute aggressively in the demand for the real estate.

With the introduction of "The Real Estate (Regulation and Development Act), 2016" ("RERA"), Benami Transaction Act, Several exemption to real estate sector in the various direct and indirect taxation laws, Affordable Housing Scheme, Subsidies to the home buyers and various other incentives to the buyers will boost the demand for the real estates.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term. As per various surveys Bengaluru is expected to be the most favored property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

Nowadays it is very difficult to get non-agricultural permission for the land parcel which hampers the land business and also drag the overall performance.

**Investments:**

As per various studies conducted housing demand is expected to decline almost by 40% in Financial Year 2021 with the affordable segment being the worst hit, due to the higher-than-anticipated slowdown caused by the COVID-19 pandemic. Demand-side risks combined with a rising uncertainty over credit availability for the sector in the light of increasing risk aversion by financial institutions.

**Government Initiatives:**

The last some year has been monumental for the Indian real estate sector. The sector, which was once disoriented and unorganized, has emerged as a mature and regulated sector owing to the slew of progressive policy reforms by the government. To name a few, Demonetization, Housing for all, liberalized FDI rules, RERA and GST, have cumulatively impacted the sector paving the way for a revival. With the strong majority government at the Center, it is likely that the reforms will be placed in the top speed. It is expected that the government will continue to broaden the scope and reach of its existing schemes and projects such as Smart City Project, Affordable Housing Scheme. The Government of India has relaxed the norms to allow Foreign Direct Investment (FDI) in the construction development sector. This move should boost affordable housing projects and smart cities across the country.

**The Challenges:**

The world of hospitality and travel has entered a new era of transformation. A combination of forces, including shifts in the global economy, game-changing innovation, geo-political turmoil, natural disasters, pandemics, and rising consumer demands have been reshaping the marketplace for year. The key challenges that the Indian real estate industry is facing today are:

- Financing and capital requirement;
- Continuous Tech Advancements;
- Unfavorable Supply Vs. Demand Dynamics;
- Increased cost of compliance and manpower
- Shortage of Skilled Manpower;
- Lack of clear land titles;
- Delays in project approval and other procedural difficulties;
- Rising Operating Costs;
- Absence of industry status;
- Lack of adequate sources of finance;
- Lower sales volume;

**Road Ahead:**

The hospitality business is dependent on global and domestic economic conditions The ongoing COVID-19 pandemic has brought global economic activity to almost a standstill. The Company is assessing the short term and long term impact of COVID-19 pandemic on its operations, profitability, liquidity position and demand for its services etc. The Company has taken several measures to sustain the operations, optimization of financial resources and cost control. Some of them are here-

1. To explore the other avenues of the income within the current business operations.
2. To diversify the use of the Land and other assets of the Company..
3. To further optimize the Human Resource Operation
4. To explore opportunity to lease / rent out options for the Company's Assets/ properties.
5. To explore opportunities for contract farming or such other options to use the Agricultural Land of the Company.

Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalization, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from

family owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralized processes to source material and organize manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The growing flow of FDI into Indian real estate is encouraging increased transparency.

**INDEPENDENT AUDITORS' REPORT**

TO,  
THE MEMBERS OF  
STERLING GREENWOODS LIMITED

**Report on the Audit of the Standalone Financial Statements****Opinion:**

We have audited the standalone financial statements of STERLING GREENWOODS LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March 2020, and the statement of Profit and Loss, Cash Flow Statement, Statement of Change in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31/03/2020, and its Loss and other comprehensive income, changes in equity and cash flows for the year ended on that date.

**Basis for Opinion:**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

**Emphasis of Matters**

- 1) We draw attention to Note No.29.2.1 of the Standalone Financial Statement, which describes the management assessment of uncertainties related to COVID-19 pandemic and its consequential impact including the recoverability of assets and operations of the Company
- 2) Regarding pending NCLT and other legal litigation by and against the Company, we draw attention to Note No. 29.2 of the standalone financial statements, as informed and explained the matters are subjudice and in absence of that, we are unable to opine in respect of financial or other impact there on if any.

Our report is not modified in respect of these matters.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

The Key Audit Matter	How our audit addressed the key audit matter
<p><b>A. Valuation of Inventories.</b> Refer to note 1.6 to the financial statements. As described in the accounting policies in note 1.6 to the financial statements, inventories are carried at the lower of cost and net realizable value. As a result, the management applies judgment in determining the appropriate provisions for obsolete stock based upon a detailed analysis of old inventory, net realizable value below cost based upon future plans for sale of inventory.</p>	<p>We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by:-</p> <ol style="list-style-type: none"> <li>1. **Other Information (or another title if appropriate, such as "Information Other than the Standalone Financial Statements and Auditors' Report Thereon")**

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

**Responsibility of Management for Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position and financial performance of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes

maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or

when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Annexure - 'B'****To the Independent Auditors' Report to the members of Sterling Greenwood Limited for the year ended 31st March, 2020. on the standalone financial statements**

(Referred to in paragraph 2(F) under ' Report on Other Legal and Regulatory Requirements ' section of our report of even date)

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Sterling Greenwood Limited ("the Holding Company") and its subsidiary company (Sterling Resorts Private Limited) collectively referred to as ( the Group) as at 31st March, 2020 in conjunction with our audit of the Ind AS standalone financial statements of the Group Companies for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act,2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 ,to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment ,including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Notes to the Financial Statements for the Year Ended 31st March, 2020****1. CORPORATE AND GENERAL INFORMATION**

STERLING GREENWOODS LIMITED ("the company"), is a public limited Company incorporated as private limited company in 1992 and subsequently converted to public limited company. The company's shares are listed on Bombay Stock Exchange. The registered office of the Company is located at Sunrise Shopping Centre, Opp. Drive in Cinema, Ahmedabad- 380054.

**1.1. BASIS OF ACCOUNTING AND SIGNIFICANT ACCOUNTING POLICIES****(A) BASIS OF PREPARATION OF FINANCIAL STATEMENTS****1.1 Statement of Compliance**

These Financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

**1.2 Basis of Measurement**

The Financial statements have been prepared on historical cost convention, except for following:

- Financial assets and liabilities (including derivative instruments ) that are measured at fair value/amortised cost;
- Non-current assets held for sale are measured at the lower of the carrying amount and fair value less cost to sell;

**1.3 Functional and Presentation Currency**

The Financial statements have been presented in Indian Rupees (Rs.), which is also the Company's functional currency. All Financial information presented in (Rs.) has been rounded on to the nearest Rupee as per the requirements of Schedule III, unless otherwise stated.

**1.4 Use of Estimates and Judgments**

The preparation of Financial statements require judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities including contingent liabilities on the date of the Financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period prospectively in which the results are known/materialised.

**1.5 Current Vs. Non-Current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period ; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months as per the reporting period ; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities respectively.

## **(B) SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies applied in the preparation of the Financial statements are given below. These accounting policies have been applied consistently to all the periods presented in the Financial statements.

### **1.6 Inventories**

Inventories are valued at the lower of cost and net realizable value.

- The inventories of materials, stores and consumables etc., are valued at lower of cost and net realizable value. Cost includes cost of purchase, non-refundable taxes and other costs incurred in bringing the inventories to their present location and condition. Cost is computed on weighted average basis.
- Land inventory including plots have been valued at lower of cost or net realisable value. Land which is under development/in near future is classified as current asset. Land which is held for undetermined use or for future development is classified as fixed assets.
- Work in progress (Fancing) is valued at cos or net realizable value. Cost includes direct material and labour and direct expenses.
- Finished Goods: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing cost. Cost is determined on weighted average cost basis.
- Traded Goods: cost includes cost or purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated cost necessary to make the sale.

### **1.7 Cash and Cash Equivalents**

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

### **1.8 Income Tax**

Income tax comprises current and deferred tax. It is recognized in the statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

#### **a) Current Tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period.

#### **b) Deferred Tax**

Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for Financial reporting purposes and the corresponding amounts used for taxation purposes (i.e. taxbase). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

- Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.
- The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.
- Deferred tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly inequity.
- Deferred tax assets and liabilities are offset when there is a legally enforceable right to setoff current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.
- Minimum alternate tax (MAT) paid in a year is charged to the statement of profit & loss as current tax. The company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the period i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset in accordance with the guidance note on accounting for Credit Available in respect of Minimum Alternate Tax under the Income tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as “MAT credit entitlement” The company reviews the “MAT credit entitlement” asset to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

## 1.9 Property, Plant and Equipment

### a) Recognition and Measurement

- Property, plant and equipment held for use in the and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation/ amortisation and accumulated impairment losses (if any).
- Cost of an item of property, plant and equipment acquired comprises its purchase price, including non-refundable import duties and taxes, as per deducting any trade discounts and rebates, borrowing cost, if capitalization criteria is met and any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located. The cost includes excise duty, value added tax and service tax etc. However, w.e.f 01.07.17, G.ST. is excluded to the extent credit of the duty or tax is availed of.
- Profit or loss arising on the disposal of property, plant and equipment are recognized in the statement of profit and loss. Gain or losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within Other Gain/Losses.

### b) Subsequent Expenditure

- Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for any component accounted for as a separate asset is derecognised when replaced.
- Major inspection /repairs /overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria

are satisfied. Any unamortised part of the previously recognised expenses of similar nature is derecognised.

**c) Depreciation and Amortisation-Tangible Assets**

- Depreciation on property, plant and equipment is provided on straight line method at the rates determined based on the useful lives of respective assets as prescribed in the Schedule II of the Act.
- Each part of items of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.
- Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).
- Depreciation method, useful lives and residual values are reviewed at each Financial year-end and adjusted, if appropriate.
- The residual value for all the assets are retained at 5% of the cost
- Useful life of the Tangible assets as per Part C of Schedule II of the Act read with notification dated 29.08.2014 of Ministry of corporate affairs is as follows :

Category of assets as per Schedule II	Useful life of Asset
Building	30 Years
Electric installation	10 Years
Computer	6 Years
Vehicles	6 Years
Office Equipment	5 Years
Furniture & Fixtures	10 Years

**d) Reclassification to Investment Property**

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property only when it has substantial value on the date of reclassification and if so it is reclassified at its carrying amount.

**1.10 Amortization of Intangible Assets**

Intangible assets acquired are accounted at their acquisition cost and are amortised over its useful life.

**1.11 Impairment of Non Financial Assets**

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which these are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**1.12 Leases**

At inception of contract, the Company assesses whether the Contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At inception or on reassessment of a contract that contains a lease component, the Company allocates consideration in the contract to each lease component on the basis of their relative standalone price.

**As a lessee****i) Right-of-use assets**

The Company recognizes right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to dismantle. Right- of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The Company presents right-to-use assets that do not meet the definition of investment property in 'Property, plant and equipment'.

**ii) Lease Liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Company generally uses its incremental borrowing rate at the lease commencement date if the discount rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount is remeasured when there is a change in future lease payments arising from a change in index or rate. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

The Company presents lease liabilities under financial liabilities in the Balance Sheet.

**iii) Short term leases and leases of low value of assets**

The Company applies the short-term lease recognition exemption to its short-term leases. It also applies the lease of low- value assets recognition exemption that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**As a lessor**

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

**1.13 Revenue Recognition**

- Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.
- The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specific of each arrangement.

**a) Sale of Goods**

Revenue from the sale of developed plot/land and other rights is recognized when significant risks and rewards of ownership are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. Revenue from the sale of goods is measured at the fair value of the consideration received or receivables, net of returns and allowances., trade discounts and volume rebates.

**b) Sale of Services**

Revenue from services is recognized in the accounting period in which the services are rendered and when invoices are raised.

**c) Interest Income**

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the Financial instrument or a shorter period, where appropriate to the gross carrying amount of the Financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument ( for example, prepayment, extension, call and similar options ) but does not consider the expected credit losses.

**d) Dividend Income**

Dividend income from investments is recognised when the Company's right to receive payment has been established.

**1.14 Employee Benefits****a) Short Term Employee Benefits**

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months as at the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period.

**b) Other Long Term Employee Benefits**

The known liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

**c) Post Employment Benefits****• Defined Benefit Plans**

The known liability, if any, recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. if any liability in a financial year it is charged to Statement of Profit and Loss account. The defined benefit obligation if any, is calculated annually by Actuaries using the projected unit credit method. In other cases, such expenditure are charged to Statement of Profit and Loss Account considering it as Short Term Benefits when it is crystalizes.

**• Defined Contribution Plan**

Defined contributions, if any, to Statutory Schemes are charged to the statement of profit and loss of the year.

**d) Termination Benefit**

Expenditure incurred on Voluntary Retirement Scheme is charged to the statement of profit and loss immediately.

**1.15 Foreign Currency Transactions**

- Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions.
- Foreign Currency Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are recognised in profit or loss in the year in which they arise.
- Non-monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

**1.16 Borrowing Cost**

- Borrowing Costs consist of interest and other costs that an entity incurs in connection with the borrowings of funds.
- Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalised as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use. The Company considers a period of twelve months or more as a substantial period of time.
- All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

**1.17 Financial Instruments**

A Financial instrument is any contract that gives rise to a Financial asset of one entity and a Financial liability or equity instrument of another entity.

**a) Financial Assets**

- **Recognition and Initial Measurement:**  
All Financial assets are initially recognised when the Company becomes a party to the contractual provisions of the instruments. A Financial asset is initially measured at fair value plus, in the case of Financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial asset.
- **Classification and Subsequent Measurement:**  
For purposes of subsequent measurement, Financial assets are classified in four categories:
  - Measured at amortised cost;
  - Measured at fair value through other comprehensive income (FVTOCI);
  - Measured at fair value through profit or loss (FVTPL); and
  - Equity Instruments measured at fair value through other comprehensive income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing Financial assets.

- Measured at amortised cost
- A Financial asset is measured at the amortised cost if both the following conditions are met:
  - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
  - The contractual terms of the Financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

As per initial measurement, such Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- **Measured at FVTOCI**

A Financial asset is measured at the FVTOCI if both the following conditions are met:

- The objective of the business model is achieved by both collecting contractual cash flows and selling the Financial assets; and
- The asset's contractual cash flows represent SPPI.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognised in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognised in the statement of profit and loss in interest income. Where the asset is disposed of, the cumulative gain or loss previously accumulated in other comprehensive income reserve is transferred in the statement of profit and loss.

- **Measured at FVTPL**

FVTPL is a residual category for Financial assets. Any Financial assets, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as FVTPL. In addition, the Company may elect to designate a Financial asset, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. Financial asset included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss. Interest / dividend income on Financial instruments measured at FVTPL are presented separately under other income.

- **Equity Instruments measured at FVTOCI**

All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no reclassification of the amounts from OCI to the statement of profit and loss, even on sale of investment.

- **Derecognition**

The Company derecognises a Financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

- **Impairment of Financial Assets**

In accordance with Ind As 109, the company uses Expected Credit Loss (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses measured through a loss allowance at an amount equal to:

- 1.) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or

- 2.) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates.

For other assets, the company uses 12 month ECL, if any, to provide for impairment loss where there is no significant increase in credit risk. If there significant increase in credit risk full lifetime ECL is used.

#### b) Financial Liabilities

- **Recognition and Initial Measurement**

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All Financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- **Subsequent Measurement**

Financial liabilities are measured subsequently at amortised cost or FVTPL. A Financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

- **Derecognition**

A Financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

- **Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

### 1.18 Provisions, Contingent Liabilities and Contingent Assets

#### a) Provisions

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions, if any, are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

#### Onerous Contracts:

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist when a contract under which the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received from it.

**b) Contingent Liabilities**

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognised because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in other notes to Financial statements.

**c) Contingent Assets**

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent assets are not recognised though are disclosed, where an inflow of economic benefits is probable.

**1.19 Investment properties**

- Investment property, if any, is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, used in the production or supply of goods or services or for administrative purposes.
- Upon initial recognition, an investment property is measured at cost. Subsequently they are stated in the balance sheet at cost, less accumulated depreciation/amortisation and accumulated impairment losses, if any.
- Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognised in the statement of profit and loss.
- The depreciable investment property i.e., buildings, are depreciated on a straight line method at a rate determined based on the useful life as provided under Schedule II of the Act.
- Leasehold land if any, is amortised on a straight line basis over the period of lease.
- Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

**1.20 Non-current assets (or disposal groups) held for sale and discontinued operations**

- Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of the carrying amount and the fair value less cost to sell.
- An impairment loss, if any, is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.
- Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Non-current assets (or disposal group), if any, classified as held for sale are presented separately in the balance sheet. Any profit or loss, if any, arising from the sale or Remeasurement of discontinued operations is presented as part of a single line item in statement of profit and loss.

**1.21 Earnings Per Share:**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding during the period are adjusted for the effects of all dilutive potential ordinary shares.

#### **1.22 Cash dividend distribution to equity holders**

The Company recognizes a liability to make cash distributions to equity holders of the Company when the distribution is authorized and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

#### **1.23 Measurement of Fair Values**

A number of the accounting policies and disclosures of the Company require the measurement of fair values, for both Financial and non-Financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-Financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial statements are categorised within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided by the management of the Company considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

#### **1.24 New Standards/Amendments to Existing Standard issued but not yet effective up to the date of issuance of the Company's Financial statements are disclosed below.**

Ministry of corporate affairs (MCA) notifies new standards or amendments to the existing standards. There is no such notification would have been applicable from 1st April, 2020.

#### **1.25 Significant Judgments and Key sources of Estimation in applying Accounting Policies**

Information about significant judgments and key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognised in the Financial statements is included in the following notes:

**a) Recognition of Deferred Tax Assets**

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

**b) Useful lives of depreciable/ amortizable assets (property, plant and equipment)**

Management reviews its estimate of the useful lives of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets.

**c) Provisions and Contingencies**

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

**d) Impairment of Financial Assets**

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.

**e) Fair value measurement of Financial instruments**

When the fair values of Financial assets and Financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The input to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility.

**1.26 GLOBAL HEALTH PANDEMIC ON COVID-19**

The outbreak of Corona virus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. In many countries, businesses are being forced to cease or limit their operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown.

Since Company is not carrying on any commercial activities COVID19 has not impacting business operation of the companies On 24th March, 2020, the Government of India ordered a nationwide lockdown for 21 days which further got extended till 3rd May, 2020 to prevent community spread of COVID-19 in India resulting in significant reduction in economic activities.

In assessing the recoverability of Company's assets such as Investments, Loans, assets, Trade receivable etc. the Company has considered internal and external information. The Company has performed sensitivity analysis on the assumptions used basis the internal and external information/ indicators of future economic conditions, the Company expects to recover the carrying amount of the assets.

#### NOTE - 29.15 - FINANCIAL RISK MANAGEMENT

The Company has a risk management policy which covers risk associated with the financial assets and liabilities. The risk management policy is approved by the Directors. The different types of risk impacting the fair value of financial instruments are as below:

##### a. Financial instrument and cash deposit

Credit risk is limited as the Company generally invest in deposits with banks and in mutual funds having high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investments in mutual fund units. Counterparty credit limits are reviewed by the Company periodically and the limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

**Notes to the Financial Statements for the Year Ended 31st March, 2020**

---

**b. Liquidity risk**

Liquidity risk is the risk that the Company may not be able to meet its financial obligations as they become due. The Company monitors its risk by determining its liquidity requirement in the short, medium and long term. This is done by drawing up cash forecast for short term and long term needs. The Company manages its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain mutual funds which provide flexibility to liquidate. Besides, it generally has certain undrawn credit facilities which can be used as and when required; such credit facilities are reviewed at regular basis.

**c. Credit Risk**

Credit risk is the risk that a customer or counterparty to a financial instrument fails to perform or pay the amounts due, causing financial loss to the company. Credit risk arises from company's activities in investments, dealing in derivatives and outstanding receivables from customers.

The Company has a prudent and conservative process for managing its credit risk arising in the course of its business activities. Sales made to customers on credit are generally made considering their past track record with the Company.

**d. Market risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of following risk: interest rate risk, foreign currency risk, other price risk. Financial instruments affected by market risk include borrowings, trade receivable and trade payable.

**e. Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates.

The Company is exposed to risk due to interest rate fluctuation on its non-current and current borrowings with floating interest rate. Interest rate risk is determined by current market interest rates, projected debt servicing capability and view on future interest rate. Such interest rate risk is actively evaluated and is managed through portfolio diversification and exercise of prepayment/refinancing options where considered necessary.

**f. Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company does not have significant foreign currency exposure.

**g. Other price risk**

The Company's exposure to securities price risk arises from investments held by the Company and classified in the balance Sheet either at fair value through OCI or at fair value through profit and loss. Having regard to the nature of securities, intrinsic worth, intent and long term nature of securities held by the Company, fluctuation in their prices are considered acceptable and do not warrant any management.

The Holding Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these consolidated financial statements that give

a true and fair view of the financial position and financial performance of the Group Companies in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group Companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective management and Board of Directors of the companies in the Group are responsible for assessing the each Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements

as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group( company and its subsidiary) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
